CS550 Assignment 2
Weilun Zhao; A20329942

Performance evaluation

1. Test:
The test is based on running 8 servers at the same time.
>   a). Normal input key and value(passed)
>   b). Normal get value by using key(passed)
>   c). Normal delete value by using key(passed)
>   d). Input invalid operation which is not input, get or del(passed)
>   e). Input an invalid key or value(passed)
>   f). get a value by inputing an nonexistent key(passed)
>   g). del a value by inputing an nonexistent key(passed)
>   h). back up a key and value in the input() (passed)
>   i). get a value from back up server when expected server lost connection(passed)

2. Performance
Using "tester.java" to test and running eight clients before testing
```
Test input :100000 times
Test get :100000 times
Test del :100000 times
The 1 client test
The average time of 100000 times input 0.00254246s
The average time of 100000 times get 0.00252256s
The average time of 100000 times del 0.00252015s

The 2 client test
The average time of 100000 times input 0.00249436s
The average time of 100000 times get 0.00279109s
The average time of 100000 times del 0.00243075s

The 3 client test
The average time of 100000 times input 0.00247833s
The average time of 100000 times get 0.00279604s
The average time of 100000 times del 0.00275032s

The 4 client test
The average time of 100000 times input 0.00613918s
The average time of 100000 times get 0.00277807s
The average time of 100000 times del 0.002761s

The 5 client test
```

The average time of 100000 times input 0.00261658s
The average time of 100000 times get 0.00376078s
The average time of 100000 times del 0.00313711s

The 6 client test
The average time of 100000 times input 0.00243975s
The average time of 100000 times get 0.0029944s
The average time of 100000 times del 0.00250892s

The 7 client test
The average time of 100000 times input 0.00249481s
The average time of 100000 times get 0.0027541s
The average time of 100000 times del 0.0056811s

The 8 client test
The average time of 100000 times input 0.00312842s
The average time of 100000 times get 0.00318698s
The average time of 100000 times del 0.00319642s
